

Welcome Aboard the Marisa III

The Marisa III is a 1974 30' Pearson fully rigged for cruising Casco Bay. She sleeps 5, has a galley with a 2 burner alcohol stove, head, radar, GPS, charts, inboard Westerbeke Diesel engine, roller furling, tiller controlled and a breeze to sail.

What to Expect: Whether it is a Sunset Sail or a Day Sail, I can get you out on the waters of Casco Bay. Skippered Charters give you a chance to get you out on the water for a few hours without the structure of a classroom setting. Just relax and enjoy the ride. Listen to the wind in the sails and the rush of the water against the hull. The stress just melts away. Often we will see harbor seals and the occasional porpoise. Depending on the wind and the weather, there are so many routes that can be taken.

Just give me a call or email to schedule one of these wonderful ways to enjoy sailing. The adventure will last a lifetime.

What to Bring: You should dress appropriate to the weather. Proper attire includes soft soled shoes. (Tennis or deck shoes - no black soles) Sweater and or jacket, Sunglasses with safety strap. Hats and gloves optional but recommended and Sunscreen. Foul weather gear is recommended for days that have a 30% or greater chance of rain. Snacks and drinks are permitted aboard but no glass containers please.

Parking: Parking is free at Handy Boat for these events.
